

Release Notes 1.3.1

7/1/02

The following items have been migrated to Production for use by Agencies beginning on July 1, 2002.

- Additional values were added to the State and Local Tax Tables: York, Pennsylvania 429610 and Cincinnati, Ohio 391610.
- Options 4 and 5 were added for the GEHA Health Benefit Plan/Code 314.
- 999B Salary table was migrated for the GM-Pay Plan.
- Team Lead is now available as a Manager Level.
- The browser name on the HR Reviewer page was modified to match the page title.
- Security has been incorporated into the Auto-Actions view. Agencies will only be able to see data specific to their organization.
- Fixes have been applied to eliminate SQL error messages when printing SF50's for termination actions. These fixes will also prevent similar SQL error messages when changing the WIP status on termination actions.
- User profile roles have been updated to fix the problem associated with printing the SF50.
- EEO (View Only) role now no longer has any permission lists associated with it. It is merely intended to serve as a supplemental role that would give users access to view RNO data that is normally hidden. In and of itself, it does not provide a user with any pages or processing capabilities.
- Every SF-50 and SF-52 will have the name and title of the OPDIV approving official in the Signature/Authentication box.
- For all OPDIVs deployed prior to CDC, a script was executed to update the conversion NOA, Action, Action Reason, Legal Authority, and Effective Date with each employee's last OPM action prior to their conversion date.

- A series of public queries have been migrated to allow those individuals with access to run the queries. Please see the table below for detailed information about the queries.

EHRP Public Queries

Name	Purpose	Parameters	Data Provided
HE_JOBCODE	Provides a list of all Job Codes	<ul style="list-style-type: none"> • Setid 	<ul style="list-style-type: none"> • Job Code • Occupational Series • Pay Plan • Salary • Grade • Pay Basis • Functional Class • Status • Sensitivity Code • Manager Level • Official Position Title
